Religionsly entertaining these sentiments, we as so lemnity believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear-sighled apostles of freedom, when danger threatens from every ship that hoats on the ocean to our stores; when every wind that blows wafts the ragged paupers to our cities, bearing a their own persons and characters the elements of degradation and disorder. To prevent the sevils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of hose wars, and we must go into the combat determined to not agion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

ARTICLES OF THE CONSTITUTION. First. We bind ourselves to co-operate, by all lawfumeans, with our fellow native citizens in the United Means, with our strength of the naturalization law.

States to procure a repeal of the naturalization law.

Scowd. We will use all proper and reasonable exer-

tions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guiltless of his country's wrong who, baving the power, shall place a foreigner in office while there is a competent native willing to accept. Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Figh. That we will not, in any manner whatever, con nect ourselves, or be connected, with any religious sect or denomination: leaving every creed to its own strength, and every man untrammelled in his own faith; adhering, for surselves, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our ou

Sizth. That this Association shall be connected with and form a post of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherants to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the psimary sources from whence Life, Health and Vigor eminate, and wise versa, pain, sickness, sisease and death. Not so with Dr. Hunt, whose extenive research and practical experience so eminently qual ify him for the profession of which he has been one of the most useful members. He contends—and a moments reflection will convince any reasoning mind of the cor-restness of his views—that the stomach, liver, and asso-ciated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial and Native American Cause, and "The Native American Newspaper.—The Native American Newspaper.

A paper, called "The Native American," was commenced a few days after the organization of our Society, and has already near 1,000 subscribers. In many places our doctrines have found ardent and able friends; but to accomplish our pariotic ends so that we may rely upon ourselves for the blessings of peace, and in the perils of war, it will be necessary for all to take a part, and promptly separate the birthrights of our own People from the indiscriminate pretentions of the papers and outcasts of the Old World.

We therefore invite our countrymen through the means of our own within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, Hunt's Botanic Prits have never been known to fail in effecting two very gratifying results, that of fails in effecting two very gratifying results, that of salve tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art

From Dr. M. L. Knapp, late physician to the Baltimore Dispensary, and agent for the Maryland Vaccine Institution.

Baltimore, March 27, 1833.

Dr. Janne: Dear Sir: You ask me what proofs I meet with of the efficacy of you medicine. I can safely say that I never prescribed a medicine for bowelcomplating that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced in a family, it becomes a standing remedy for those adments, and is called for again and again, which I think a pretty good proof of its efficacy and usefamess. In the some mer complaints of children it has frequently appeared to snatch the little victims, as it were, from the grave. I saved the life of my child, and of such and such a child. I have repeatedly beard said. In dysenteric affections of adults, I have time and again seen it act like a chair and give permanent relief in a few hours, I may say in a few minutes. In fine it is a valuable medicine, and no few minutes. In fine it is a valuable medicine, and no family should be without it. Respectfully, M. L. KNAPP, M. D.

From Dr. Wm. Steeling, Physician to the Cumberland.

BRIDGETOWN, JULY 19, 1836. This may certify that I have used Dr. Javne's Carminative Balsam very extensively in howel complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with for the relief of those diseases.

GERMANTOWN, APREL 30, 1838. GERMANTOWN APREL 30, 1838.

Dr. Jayne: My Dear Sir: It gives me pleasure communicate in this mander, my favorable opinion at your Carminative Brisan. For its years it has been almost constant use in, my family. It, was thus introduced: A child of five years old had been sick some five or six days with the dynamic. Calomel and other medicines had been far, but with the least apparent benefit. The negative discharges from the howels were neghbored in his carminative and five the books with a property its half special and five the books were neghbored in his carminative and five the howels were neghbored in his carminative and five the second of the carminative and five the second of the carminative and five the second of the carminative and the carminative a the least apparent benefit. The requirer discharges from the bowels were unchanged in both, character and firequency; the strength of the field of a character and had out much longer. At this areas we a west estimated by a friend of your bassam. As a second to the most continued to the morning, the physician four the discharges essentially changed; the disease was checked, my, removed all other medicines were discontinued in the child was soon restored to usite! health as have ever since ken soon restored to usite! health to have wer since kepi this invaluable medicine on hand, and for both adults and children have found it uniformly efficacious. RELFE'S ASTHMATIC PILL'S have, from their extraordinary success in group instant relief, and in curing Colds, Coughs, Asthures, Difficulty of Breeding, Wheezing, Tightness of the Chest, Pain in the side, Spitting of Blood, Chilliness and Shiverings that irrecade Fevers and Lung Complaints generally! become one of the most popular Medicines known, and are sought after from every part of the country, on account of the alonishing success which has attended their administration in the above complaints, frequently curing the most obstinate cases, and giving the most unexpected relief, after every other remedy has failed and persons had given themselves up in despair of a cure!

They have been known to cure persons supposed to be far gone in consumption, and exhibiting all the appearance of approaching dissolution.

And such have been the salutary effects of these Pills, even in hopeless cases, as so far to mitigate the sufferings of the patient, as evidently to prolong life for days and weeks, and give to it a positive comfort they never expected to enjoy.
